ABHINASH BEVARA

abhibevera06@gmail.com | 9398145824 | LeetCode | Linkedin | Github

Career Objective

Computer Science (AI/ML) undergraduate with strong problem-solving abilities and a solid foundation in Data Structures and Algorithms using Python. Experienced in AI, Machine Learning, and NLP projects, with a focus on building efficient, real-world solutions. Seeking a full-time software or AI/ML role to contribute technical expertise and grow within a professional engineering environment.

Education

GMRIT Rajam *Aug 2023 – Present*
BTech in CSE(AI&ML) |GPA: 8.1/10.0

- **Coursework:** Data Structures and Algorithms , Database Management , AI and Machine Learning.

Projects

Transformer-Based Healthcare Chatbot — *Deep Learning & NLP*

- Built a Transformer-based healthcare chatbot to predict diseases from user-described symptoms.
- Converted structured symptom data into natural language text and fine-tuned a BERT model for multi-class classification. .
- Generated confidence-based predictions and integrated medical descriptions and precautions.
- **Tech:** Python, PyTorch, Hugging Face Transformers, BERT.

ATS Resume–Job Match Analyzer — *NLP & Semantic Similarity*

- Developed an ATS resume analyzer using BERT-based sentence embeddings and cosine similarity.
- Extracted resume text from PDFs and identified common and missing keywords.
- Built an interactive Streamlit interface to visualize ATS compatibility scores.
- **Tech:** Python, Streamlit, Sentence-BERT, NLP, NLTK.

Experience

Cloud Computing Intern— Summer Internship *2025*

- Hands-on experience with cloud computing fundamentals using AWS and core cloud services.

Technical Skills

Languages: C++, C, Python
AI/ML Technologies: ML, Datascince, NLP, DeepLearning, LLm's
Web Technologies: HTML5, CSS3, JavaScript
Database: SQL (Oracle)
Tools: Git, GitHub, Visual Studio Code

Certifications

Deep Learning Certification – Simplilearn *2026*

- Designed and trained deep neural network models, applying core deep learning principles for feature learning
